ABOUT ASRY

For over four decades, ASRY has built its reputation as the Arabian Gulf's leading shipyard by prioritizing customer satisfaction. As a service provider, ASRY has long understood that exceeding client expectations is crucial. To achieve this, ASRY fostered a culture of constant communication and collaboration that is deeply ingrained in all our operations.

VISION

To lead the way as a global maritime hub, delivering diversified, trusted world-class services.

MISSION

To deliver excellent services to the global maritime community, while fostering growth in our society and industry.

ASRY CAPABILITIES

Meeting Clients' Statutory and Charterer Compliance Requirements

Our expert engineers and technical teams ensure vessels meet all international and charterer standards, helping clients stay ahead of upcoming regulations and maximize opportunities.

Expansive Dock Spaces

One ULCC/VLCC graving dock accommodating vessels up to 500,000 DWT, and two floating docks with handling capacities for ships up to 120,000 DWT, built for scale, speed, and efficiency.

Comprehensive Workshop Facilities

Fully equipped workshops offering mechanical, electrical, hydraulic, and fabrication services, providing complete end-to-end repair and maintenance solutions.

High-Capacity Lifting and Transportation Equipment

Gantry cranes, floating cranes, and mobile units ensuring smooth vessel movements and efficient workflow across the yard.

In-house Fabrication and Engineering Expertise

Engineering excellence from design to completion, including steel and aluminum fabrication, reverse engineering, and precision machining.

Strong Industry Certifications and Accreditations

Recognized globally with ISO 45001, 14001, 9001, AMPP QP1 (Coatings), and ISO 30000 (Ship Recycling Management), reflecting ASRY's commitment to international standards.

Robust Health and Safety Standards (RoSPA Gold Award Winner)

Award-winning safety culture built on rigorous training, hazard identification, and proven performance recognized by the RoSPA Gold Health and Safety Award.

Extensive Quayside and Berthing Repair

15 repair berths spanning over 5,000m of quay length, enabling multiple vessel repairs simultaneously and minimizing turnaround times.

Proven Track Record

Over 4,120 projects. Decades of experience since 1977, averaging 200+ projects annually, showcasing reliability and extensive industry knowledge.

Diversified Repair and Conversion Services

7/24 service covering all vessel types, from tankers and LNG/LPG carriers to naval and offshore vessels, backed by decades of specialized expertise.

Advanced Blasting & Painting Capabilities

Modern hydro and grit-blasting systems ensuring superior surface preparation and coating quality for all types of vessels.

Leading Ship Recycling and Green Practices

Committed to sustainable ship recycling under the Hong Kong Convention, with successful green projects.

Partnerships for Enhanced Capabilities

7/24 service covering all vessel types, from tankers and LNG/LPG carriers to naval and offshore vessels, backed by decades of specialized expertise.

Experienced and Skilled Workforce

A dedicated team of engineers, technicians, and naval architects delivering quality, precision, and performance in every project.

SERVICES

ASRY, established in 1977 in Bahrain, is the Arabian Gulf's leading maritime repair and fabrication facility, specialising in Ship Repair & Conversion, Rig Repair & Conversion, Naval Repair & Conversion, Industrial Fabrication, Ship Recycling, Shipbuilding, and Marine Services.

SHIP REPAIR & CONVERSION

ASRY has built a strong reputation in ship repair and conversion, completing over 4,120 projects in four decades. ASRY's vessels range from global owners and managers to regional clients.

- ROYAL BAHRAIN
NAVAL FORCE

Building on ASRY's decades of experience in repairing and supporting Navy and Navy Support ships operating in the GCC Region, the yard is capable of conducting repairs in dock and alongside, as well as deploying repair and maintenance teams to regional Naval bases as needed.

INDUSTRIAL FABRICATION

Leveraging a team of engineers and naval architects with decades of mechanical, electrical, and structural engineering experience, ASRY can provide turnkey fabrication and construction projects from conception through to delivery.

APRIL 2021

Statement of Compliance (SOC)
with Hong Kong International
Convention for the Safe
and Environmentally Sound
Recycling of Ships

Statement of Compliance (SOC)
with European Union - Ship
Recycling Regulation (EU-SRR)

ASRY is working towards being the Middle East hub for environmentally-conscious vessel recycling, collaborating with green-minded owners that share our commitment to responsible end-of-life vessel management.

SHIPBUILDING

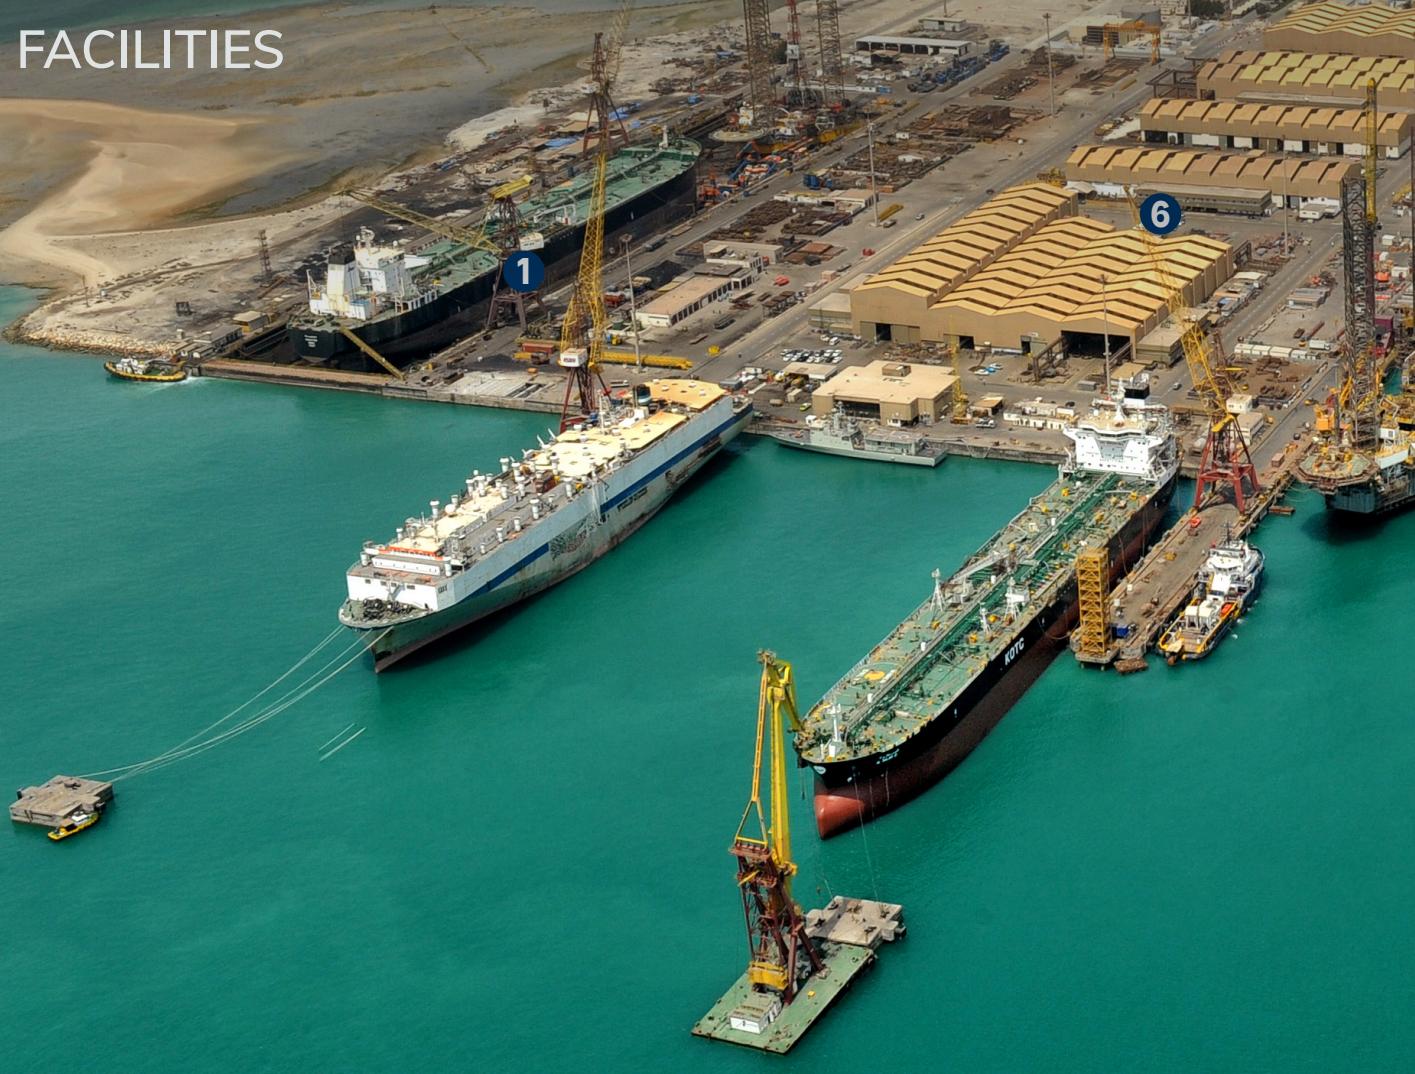

ASRY delivers full shipbuilding works from design to handover. Using CAD tools, naval architects develop and test digital plans. Steel is cut and welded into blocks, then assembled in dry docks. Vessels are outfitted with engines, HVAC, wiring, cabins, and control systems. Each ship is trialled at sea and inspected before delivery.

MARINE SERVICES

ASRY supports safe port operations with towage, pilotage, mooring, and Vessel Traffic Services. The Marine Services division handles vessels of all sizes, ensuring safe arrivals, berthing, and departures. Backed by a modern fleet and trained crews, ASRY operates with precision and reliability around the clock.
